

**PRACTICAL.
POWERFUL.
AUTHENTIC.**

**Become an exhibitor
at the steinexpo!**

**2/9 to 5/9
2026**

**Homburg/Nieder-Ofleiden
Germany**

Take part in the unique demonstration exhibition for the raw materials and construction industry at a trade fair site of a very special kind. From September **2nd to 5th 2026**, the industry will once again gather for its impressive performance showcase at Europe's largest active basalt quarry!

Focused over four trade fair days, leading manufacturers of construction machinery, suppliers of processing technology, equipment providers, and service companies will present their machines, plants, industry innovations and services – hands-on, powerful and unembellished!

As a national and international industry meeting point, steinexpo has long been established – also welcome your business partners and forge valuable new customer connections directly in the quarry in Homberg/Nieder-Ofleiden.

We look forward to welcoming you as an exhibitor!

Visitors: 61.530
 Percentage of trade visitors: 89 %
 International participation: 21,7 %, of that: 87 % EU Countries
 13 % Other

Number of exhibitors: 305
 Brands represented: 442
 Gross area: 185.000 qm
 Net area: 65.700 qm

Excerpt from the visitor survey 2023:

Drilling and blasting

- Drilling equipment
- Drilling accessories
- Explosives
- Blasting accessories

Extraction- and transport equipment

- Wheel loaders
- Hydraulic excavators
- Heavy-duty motor vehicles
- Dumpers
- Lorries/trucks
- Conveyor belt systems
- Other transport equipment

Automation and digitization

- Machine control
- Drones/UAVs
- Systems for surveying, inspection and site surveillance
- Automation and digitization in general

Mineral processing technology

- Crushers
- Screening plants
- Conveyor belt systems
- Metering/dosing
- Control
- Power units for wet treatment
- Silos
- Dust extraction

Refinement

- Plants/machines for asphalt production
- Plants/machines for ready-mixed concrete production
- Plants/machines for civil engineering

Demolition and recycling

- Demolition hammers and shears
- Machines/plants for recycling of building materials

Accessories

- Attachments
- Wear parts
- Tires/Chains
- Drive technology
- Lubrication systems
- Hydraulic supplies
- Tank systems

Services

- Engineering firms
- Consulting
- Certification
- Institutes

Individual presentation options

The hands-on, impressive live demonstrations of machinery, plants, industry-specific solutions and innovations make steinexpo a "must-attend" event for your industry.

As an exhibitor you have a variety of presentation options at your disposal:

Indoor Space

Modern large pavilions offer attractive indoor exhibition areas.

Outdoor Area | Demonstration

Your machines and plants in action on your own exhibition space.

Outdoor Area | General Demonstration

Hydraulic excavators, trucks, wheel loaders and dumpers showcase their capabilities in choreographed and moderated live demonstrations.

Outdoor Area | Static Presentation

Your machines and plants presented in a representative manner on your own exhibition space.

Reasons for participation

Unique

The dynamic "at work" concept and the impressive trade fair venue make steinexpo a unique industry meeting point.

Hands-On

Leading providers from the raw materials and construction industry showcase their portfolio realistically and practically on-site.

Active

Powerful, vibrant, unembellished: The lively and active demonstration concept of steinexpo!

Professional Visitors

With 89 % of attendees being professionals, steinexpo is recognized as a competent information platform.

International

More than 21 % of professional visitors come from abroad.

Innovative

The latest products, services and cutting-edge processes are impressively presented here.

The upcoming international demonstration exhibition for the raw materials and construction industry will feature many new developments. Once again, an industry innovation park under the theme "Quarry Vision 2.6" will generate great attention.

At the Quarry Vision area, renowned exhibitors will showcase their future innovations some of which may not yet be market-ready but still tangible and in action or static. Expect to see highly intelligent machines, vehicles and services. Digital, connected, intelligent, autonomous, innovative drive technologies ... these are the key terms.

Stay tuned! The Quarry Vision Innovation Park 2.6 covers an area of approximately 4.000 m².

THINK BIG! is an initiative by VDMA e.V. (Association of German Machinery and Equipment Manufacturers) and its members. The goal is to inspire young people to pursue technical professions, technical training and technical studies, thereby positively strengthening the image of the industry and related professions.

The hands-on demo fair is the perfect platform for this! THINK BIG! at steinexpo offers the opportunity to explore careers and training options beyond the "mainstream" and develop ideas for future professional paths.

As an exhibitor you will have the opportunity to make a special contribution to the future of the construction, raw materials and their supply industries as a partner of the initiative.

Would you like to actively support the THINK BIG! initiative?

Further detailed information is available on our website at www.steinexpo.eu/thinkbig or the VDMA website.

Successful and expert partnerships

By their professional support in the project work, the conceptual development, the professional network and the onsite implementation, the large number of our dedicated professional trade fair partners makes steinexpo the central meeting point for the European raw and building materials industry.

The German Aggregates Federation (MIRO) represents the gravel and sand, quartz and natural stone industry in the areas of taxation/business administration, resource management/environmental/reuse, legislation, occupational safety, mining and processing technology, and application technology/standards at federal and European level.

www.bv-miro.org

The DA, German Demolition Association sees itself as a lobbyist, service provider and motor of the industry and is the largest national association in the demolition industry in Europe with currently over 750 members from a wide range of sectors. On a European level, the DA influences the demolition industry by participating in the European Demolition Association EDA.

www.deutscher-abbruchverband.de

UEPG stands for „Union Européenne des Producteurs de Granulats“ (European Aggregates Association). The UEPG represents the European aggregates industry in Brussels, with members in 24 countries. The UEPG represents issues of importance to industry with European institutions and other stakeholders on behalf of its members.

www.uepg.eu

The German Association for Construction Industry Engineers and Professionals (VDBUM) is a professional advocacy group that represents its members in all aspects of professional life and is a forum for construction professionals. Their members include both users and manufacturers of construction machinery with their sales and service partners.

www.vdbum.de

The VDMA represents more than 3500 German and European mechanical and plant engineering companies. The industry stands for innovation, export orientation and medium-sized companies. The companies employ a total of around 3 million people in the EU-27, more than 1.2 million of them in Germany alone. This makes mechanical and plant engineering the largest employer among the capital goods industries, both in the EU-27 and in Germany.
