QUARRY VISION 2.6

QUARRY NEXT GEN – WE'RE ON BOARD!

stein expo 2026

QUARRY VISION 2.6 AT STEINEXPO

The Quarry Vision concept showcases the innovative, future-driven side of the raw materials and building materials industry.

As a special feature of the upcoming **steinexpo**, it is designed to highlight the latest technologies, products, and services – making your company's innovation power clearly visible to trade visitors.

THIS IS NEW!

QUARRY VISION 2.6

stein expo 2026

Innovation presentations at your own booth

As a participating company, you present your specific innovations **directly at your own exhibition stand**.

With the updated Quarry Vision concept, there's **no need for an additional, staff- and logistics-intensive** presence elsewhere on the fairground. Your innovative presentation and expert consultation take place right at your booth.

This concept ensures increased visibility for Quarry Vision **across the entire exhibition**. At the same time, trade visitors benefit from a concentrated and focused access to all your relevant exhibits, industry solutions, and pioneering innovations!

Live demonstrations on a dedicated test track

If you require a specially designated **test track** for showcasing your innovative exhibit – **such as autonomous driving** – or need additional space to display and demonstrate your innovation (e.g. **large-scale exhibits**), feel free to contact us. Together, we'll create an eye-catching and unique demonstration opportunity in coordination with all involved parties!

This setup allows you to present your technologies in a practical, hands-on way under realistic conditions.

Of course, you'll receive a driving permit that allows you to conveniently shuttle visitors from your booth directly to the branded Quarry Vision area.

VISIBILITY THROUGH CONSISTENT BRANDING MODULES

As a participating exhibitor at Quarry Vision, you will be clearly recognizable at steinexpo 2026. Your stand will be equipped with special logo elements, including your own company logo:

Fence elements with logo covers

DIN A2 display board

Alongside the Quarry Vision logo, we’re happy to include the name of your exhibit and relevant technical specifications.

QUARRY VISION 2.6

ADDITIONAL ON-SITE PROMOTION

Information boards and digital guide

An overview board located at the entrance to the exhibition ground will feature all Quarry Vision exhibitors with brief descriptions of their innovations.

All participating stands will also be clearly marked on site maps distributed throughout the exhibition area.

The same information will be available digitally via the official steinexpoAPP for all visitors.

ADDITIONAL PROMOTION AHEAD OF THE TRADE FAIR

Online campaigns

Social media, newsletters, and the steinexpo website will be used to promote Quarry Vision. We'd be happy to include a short video introducing your company and showcasing your innovations – feel free to submit one!

Trade media and press

Articles and advertising mentions will appear in leading industry journals and trade publications.

SELECTION CRITERIA FOR PARTICIPATING EXHIBITORS

QUARRY VISION 2.6

We're looking for the presentation of exhibits, services, or innovations: studies, products nearing market readiness, or those recently launched.

Take this opportunity to showcase your solution and engage in dialogue with us. Whether it's a concept, a prototype, or a proven innovation – we're eager to discover your ideas and visionary developments. Get in touch with us to learn more about the possibilities. We look forward to receiving your submission!

Your flat participation fee for Quarry Vision 2.6: **€ 675.00** (net).

Please note: Final approval of participation is subject to the professional discretion of the organizer.
